DETAILED ACTION***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the envelope detector and a sign detector must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. Applicant expressed concern, in a communication filed on November 18, 2005, that Figures 32-34 are incorrect and Figures 35-42 are missing in the published application. The records show that applicant filed replacement drawings on August 13, 2004, which were subsequently printed in the published application instead of originally filed drawings. It appears that applicant inadvertently submitted the replacement drawings, resulting in incorrect and missing Figures in the drawings. It is suggested that applicant file a petition to reinstate the original drawings or simply resubmit the original drawings as newest replacement drawings replacing the "replacement drawings" filed on August 13, 2004. The new replacement drawings must include amendment to Fig.41 filed on November 18, 2005.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the

renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
